Pretreatment Training - Introductory, Intermediate, & Advanced

Introductory Topics - Monday

The objective of this section of the training course is to provide the basic regulatory and technical framework which supports the development and implementation of pretreatment programs under the National Pollutant Discharge Elimination System (NPDES) and the Clean Water Act (CWA).

The Introduction course is designed and recommended for environmental professionals responsible for developing and implementing the Pretreatment Program at the local level, industrial dischargers, consultants, and especially individuals with less than two years in a pretreatment program.

Monday, March 11, 2013, Time: 7:30 am - 5:00 pm

Registration, Time: 7:30 am - 8:15 am

- ◆ Module 1: General Overview & Program Objectives
- ◆ Module 2: Regulatory Requirements & General Program Implementation
- ◆ Module 3: Identification of Industrial Users and Tracking
- ◆ Module 4: Federal Categorical Pretreatment Standards
- ◆ Module 5: Monitoring (Sampling and Analysis) & Reporting Requirements
- ◆ Module 6: Enforcement

Intermediate Topics - Tuesday & Wednesday

Control of Industrial Discharges

Focus on Permit Development and Issuance

The objective of this section of the training course is to provide the framework for collecting, managing, and applying the information necessary to develop and issue individual control mechanisms (permits) to industrial dischargers. The course includes extensive discussion of the process for reviewing industrial information to determine appropriate categorization of the industry and subsequent effluent limit derivation.

Tuesday, March 12, 2013, Time: 8:00 am - 4:30 pm

- ◆ Module 1: Introduction of the Permitting Process
- ◆ Module 2: Effluent Limits: Categorical Standards (including identification and categorization of industries); Local Limits; Combined Wastestream Formula, and Flow-weighted Average; Production-Based Standards

Wednesday, March 13, 2013, Time: 8:15 am - 4:30 pm

- ◆ Module 3: Permit Monitoring
- ◆ Module 4: Permit Reporting Requirements
- ◆ Module 5: Standard/Special Conditions
- ◆ Module 6: Fact Sheet & Administrative Procedures
- ◆ Module 7: Waste Haulers
- ◆ Module 8: POTW Responsibilities for Compliance Monitoring, Inspections, and Enforcement

Advanced Topics - Thursday

Development and Application of Pretreatment Standards with Focus on Local Limits

THE ADVANCED COURSE is designed and recommended for environmental professionals responsible for developing and implementing the Pretreatment Program at the local level, industrial dischargers, and consultants.

Thursday, March 14, 2013, Time: 8:00 am - 5:00 pm

- ◆ Module 1: Determining Pollutants of Concern
- ◆ Module 2: Developing a Sampling Plan
- ◆ Module 3: Collecting and Analyzing Data
- ◆ Module 4: Calculating Maximum Allowable Headworks Load; Removal Efficiencies; Maximum Allowable Industrial Loads; Allocating Industrial Loads
- ◆ Module 5: Developing Permit Limits
