

Division of Environmental and Financial Assistance (DEFA)

Reorganizing to better serve Ohio
communities and businesses

OWEA

Government and Regulatory Affairs Workshop
March 17, 2016

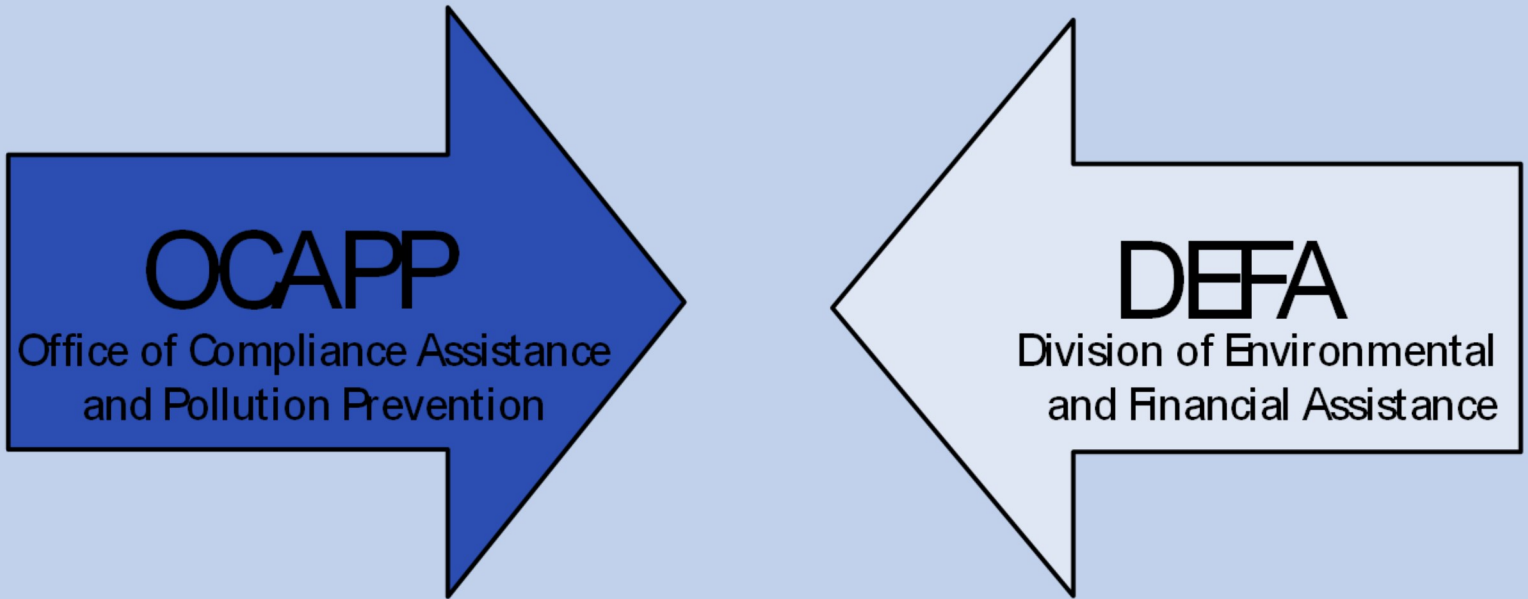

Strategic Vision

Ohio EPA Director Butler has had a long-standing vision of creating a “one-stop shop” environment within Ohio EPA for customers seeking our technical and financial resources to help them achieve compliance.

A core component of this initiative has included a reorganization to better align several of Ohio EPA’s compliance, technical and funding assistance programs under a single division.

The Merger

The merger of our Office of Compliance Assistance and Pollution Prevention (OCAPP) and our Division of Environmental and Financial Assistance (DEFA).
