

Southwest Section

Presents

Wastewater Plant Operations Workshop

Date

Tuesday, May 13 and Wednesday May 14, 2014

Location

Lesourdsville WWTP
5260 Hamilton-Middletown Road
Hamilton, Ohio 45011

REGISTER EARLY!!!

REGISTRATION IS LIMITED TO 20 PARTICIPANTS!

Class is OEPA approved for 11.5 contact hours

This is a **HANDS ON** Workshop includes: training in the classroom, laboratory, and treatment plant.

If your plant has a microscope that can be easily transported, please bring it to the class. The class will cover proper use and care for microscopes.

Class Agenda is below.

Operators are encouraged to bring samples from your plant for evaluation

Rich Weigand, Director of the West Virginia Environmental Training Center, will be the instructor for this program. He has evaluated and photographed dozens of wastewater samples during the past 25 years. Rich is a Certified Environmental Trainer and a Class III Operator. He has taught numerous workshops at WEFTEC and throughout the United States and Canada.

- Ohio EPA contact hours (approval numbers will be given at class)
- Coffee, Doughnuts and Lunch included

Costs: \$125 per participant

NOTE: Class size is limited to 20 participants, the first twenty registered.
