

The Northeast Section of the Ohio Water Environment Association  
invites you to attend our FREE

# Young Professionals Event

**Thursday, November 17, 2022** ♣ **PQM WWTP Tour** ♣ **Lorain, Ohio** ♣ **FREE**

The City of Lorain is hosting the Northeast Section OWEA Young Professionals group to tour their PQM WWTP. The PQM WWTP was constructed from 1986 to 1988. The PQM WWTP was constructed on the West side of Lorain instead of attempting to transport all future flow to the Black River WWTP. PQM was originally designed and is still operating as a Trickling Filter Wastewater Treatment Plant. PQM has a daily average of 2.6 MGD, PQM was designed with a Design Capacity of 5.4 MGD and a Maximum Hydraulic Capacity of 14.8 MGD. PQM is equipped with a 6mm bar screen, aerated grit system, 4 Primary Settling Tanks, 3 random media Tricking Filters, a phosphorus precipitation tank, 3 Final Settling Tanks, and a Chlorine Contact Tank.

**Plant Tour:** Phillip Q. Maiorana (PQM) WWTP  
4:30-5:30 pm 6301 W Erie Avenue, Lorain, Ohio 44053  
*(Attendees should enter plant from Old Lake Road and park near Administration Building)*

**Register** at [www.ohiowea.org](http://www.ohiowea.org) for this **FREE** seminar.

This program has been submitted for **1 hour of continuing education credit** for certified operators in Ohio. To receive credit, attendees must be present during the entire tour and complete a contact hour form.
