

Internet of Things – Applications of Remote Data Loggers for the Water Industry

SWOWEA YOUNG PROFESSIONALS LUNCH & LEARN

Stantec
10200 Alliance Road, Suite 300
Blue Ash, Ohio 45242

November 6th
12 PM

The presentation will focus on the evolution and application of remote data loggers in the area of Internet of Things (IoT) devices. The course will present the following:

- Introduction to IoT devices
- Ayyeka's Data Loggers Development
- How remote loggers can enhance operational efficiency
- Real-Time data for a range of applications
- Integration with existing SCADA systems
- Data management and Reporting

A case study on Metropolitan Sewer District of Greater Cincinnati (MSDGC) Smart Sewer network will be highlighted. MSDGC's Smart Sewer system uses Ayyeka Wavelet devices that help reduce overflows into the Ohio River and provide real-time data to make operational and system decisions.

This event is free, and lunch is provided. Registration is limited to first 20 professionals.

Pending approval for contact hours to be offered for attending this event.

Please reach out to Maria Blanchard at blanchardmp1@bv.com with any questions.
