

Tour Old River Station

THE WORLD'S FOUR LARGEST TRIPLE EXPANSION STEAM ENGINES

SWOWEA YOUNG PROFESSIONALS EVENT

Greater Cincinnati Water Works
5651 Kellogg Ave, Cincinnati, Ohio 45228

November 14th
3 PM

See these colossal engines up close and discover the architectural wonder of the building that houses them!

* Find out why Old River Station has been called "one of the world's best-kept secrets." * Look inside the great pump chamber that moved a staggering 30,000,000 gallons of water every day for 57 years!

BE PREPARED FOR
A JAW-DROPPING
EXPERIENCE!

Construction of the seven-story circular pump house began in 1898, and the gigantic engines were set in motion in 1906. Your tour will take you from near the top of the facility all the way to the pump pit floor, six feet under the Ohio River bottom! There, the mammoth machines rest on 20 feet of white oak foundation.

Closed toe, closed heel and rubber sole shoes are required.

Pending approval for contact hours to be offered for attending this event.
