Scrap Tire Regulations and Infrastructure In Your Community

August 8, 2023 at 1:00 p.m. EST

Channon Cohen
Environmental Specialist
DMWM

Tires play a vital role, but what happens to old tires once they're removed from a vehicle? We all play a role in ensuring scrap tires are properly managed to reduce environmental and health threats.

Learn about the regulations and programs to manage tire disposal, cleanup, and repurposing. We'll share the latest updates to Ohio's scrap tire regulations, examples of common products made from scrap tires, and initiatives underway to improve education and outreach.
